

TCVM Review On-line

We would like to invite you to experience an on-line review class that may really help your practice of TCVM.

Its purpose is to review basic TCVM Principles. You can subscribe to Part I and / or Part II, as you see fit. In each session, you will receive 20+ hours of the latest lectures, originally delivered and recorded at our 2009 Basic Acupuncture class. Since you have had a chance to use your TCVM knowledge and basic skills for a while, this information will be accessed at a deeper level to enhance some principles and clarify others you are currently using. It can also remind you of some you may have forgotten.

You can register for this refresher course by faxing in the attached registration form. The fee for each session is \$625, but Chi graduates receive an audit price of \$313 each and IVAS/CSU graduates \$500. You will receive a confirmation email that your registration was received, and also another email that gives you the link to the class. In a few days you will be attending our lectures along with many other happy students.

Included in the price is the study notes binder, shipped to you via UPS. You can view the class at your own speed and in your own time frame; i.e, anytime, 24/7 for 3 months from the date you receive the link. We have received wonderful feedback from so many students who have taken our online courses, especially this one. I hope you can make use of this unusual opportunity to help further your knowledge and application of this vast body of work.

In addition, during the course if you have any diagnosis questions, or advice as to which points or herbs to apply, you are served by our staff veterinarian, Lisa Trevisanello, and can contact her at consult@tcvm.com. She can usually respond to you within 24 hours.

Online Audit Registration Form

This program is for Licensed Veterinarians only.

Name: _____

Title: _____ License #: _____
